

15 . DESIGN, SPECIFICATION & PROTECTION OF ELECTRICAL SYSTEM FOR BUILDINGS AND MS IEC 60364 - ELECTRICAL INSTALLATIONS OF BUILDINGS

COURSE CODE : DSPE || 2 DAYS

iThis two-day course combines theory and practical training, delivered by experienced instructors to provide a comprehensive understanding of the design, planning, and protection of electrical supply in commercial buildings.

COURSE CONTENT

- Planning of electrical supply in commercial buildings
- Electrical protection systems in commercial buildings
- Utility power supply connection points in commercial buildings
- Instrument transformers
- Fuses and their applications
- Renewable energy
- Energy efficiency
- Overview of MS IEC 60364, MS 1936, and MS 1979

RECOMMENDED FOR

- Electrical Engineer
- Electrical Technician
- Electrician
- Electrical Chargeman (Authorized Person)
